

## *Machinery and Automation*

- **Electroshock Device**  
With dimmer

- **Lighting Board With Dimmer**

- **Automatic Feed Distributer**

- Sensitive weighing
- Auto and manual function
- Alarm
- Records the data

- **Lamp Holder**

- It reduces mortality in poultry houses.
- It helps to increase body weight.
- Provides lower FCR rate.
- It provides low electricity consumption.
- Offers low maintenance costs

- **Led Lamp 10W**

- **Electric Cable**

- **Control Board 50**

Automatic shed controle:

- Fans
- Water pumps
- Heating
- Inside heat sensor
- Outside heat sensor
- Humidity sensor
- Pressure switch
- Alarm
- Motor problem alarm
- High heat alarm
- Low heat alarm
- Phase loss alarm, low volt alarm
- Sms alarm
- Conection to PC

- **Chick Weigher System**

- Calculates the number of chicks weighed.
- It provides the deviation of the average daily weight of the large number of chicks and the standard calculation of weights.
- Calculates the daily growth rate.
- It can store 100 days of information in its memory.
