- ❖ Tray Feeder

❖ 5 Kg Bucket Feeder

❖ 3 Kg. Feeder

❖ 3,5 Kg. Feeder

❖ 10 kg. Manuel Feeder

- ❖ 15 kg. Manuel Feeder

- ❖ 20 kg. Manuel Feeder

- **Spin Feeding:**

Spreading feeding system used in breeding is one of the most useful feeding systems. The system is capable of distributing series and even amounts of feed in a large circular area. Proper feeding as well as feeding is essential for raising healthy animals. In this way, the chickens do not have the stress of eating and the yield increases in the house. It has two options as ground and air system.

- ❖ **Suspended Feeder**

- ❖ **Spin Feeder On Ground**
